

Specialized University for the Smarter Future

KYUNGWOON UNIVERSITY

Beyond your Expectation

KYUNGWOON UNIVERSITY

We broaden the
scope of careers and
cultivate fusion
talents!

**6 schools,
40 majors.**

School of Aviation System

- Aviation Maintenance Engineering
- Mechanical Design Engineering
- Electrical, Electronic & Communication Engineering
- Unmanned Aircraft Systems
- Unmanned Aircraft Applications
- UAM Operation Control
- Mobility Batteries

School of Aviation and Airport Services

- Flight Operation
- Airline Tourism
- Helicopter Operation
- Air Traffic Control
- Transportation & Logistics
- Service Management
- Aviation Safety

School of Software Convergence

- Intelligent Software
- Smart Mobility
- Visual Illustration
- Video & Animation
- 3D Interior Design & Architecture

Specialized University for the Smarter Future - **KYUNGWOON UNIVERSITY**

School of Social Safety

- Military Science
- Police Administration
- Disaster Management
- Social Welfare
- Counseling Psychology
- Safety Engineering
- Martial Arts Studies
- Sports Health and Rehabilitation

School of Nursing and Health

- Nursing
- Physical Therapy
- Occupational Therapy
- Dental Hygiene
- Biomedical Laboratory
- Science

School of Future Industry Convergence

- Aviation Maintenance Convergence
- Electrical and Electronics Convergence Engineering
- Multi-drone Management
- Battery Convergence Engineering
- Investment Management
- Carbon Neutrality and Ecology
- Investment Management

School of Global Education

- Korean Language & Studies
- Business Administration
- Safety & Disaster Prevention
- IT-based Business
- Health & Biotechnology

The Standard for Excellence in Aviation Education

**One of the top universities major companies hire from.
Make your dreams come true at Kyungwoon University.**

Kyungwoon University (KW), located in Gumi, Gyeongsangbuk-do province, is the only aviation-specialized university in the region. Since the foundation in 1997, KW has pursued Truth, Creativity, and Benevolence within ethical educational ideology, to nurture society-friendly, competent manpower. KW emerges as the national leader specialized in aviation. It is doing its best to produce the best human resources with the best education, seeking to become one of Korea's most prestigious field-based universities.

Taking off Achievement!

**Top-notch education Highest Post Employment rate Career
Development More Scholarship Opportunities**

KYUNGWOON UNIVERSITY IN THE WORLD!!

CENTRAL KOREA!**

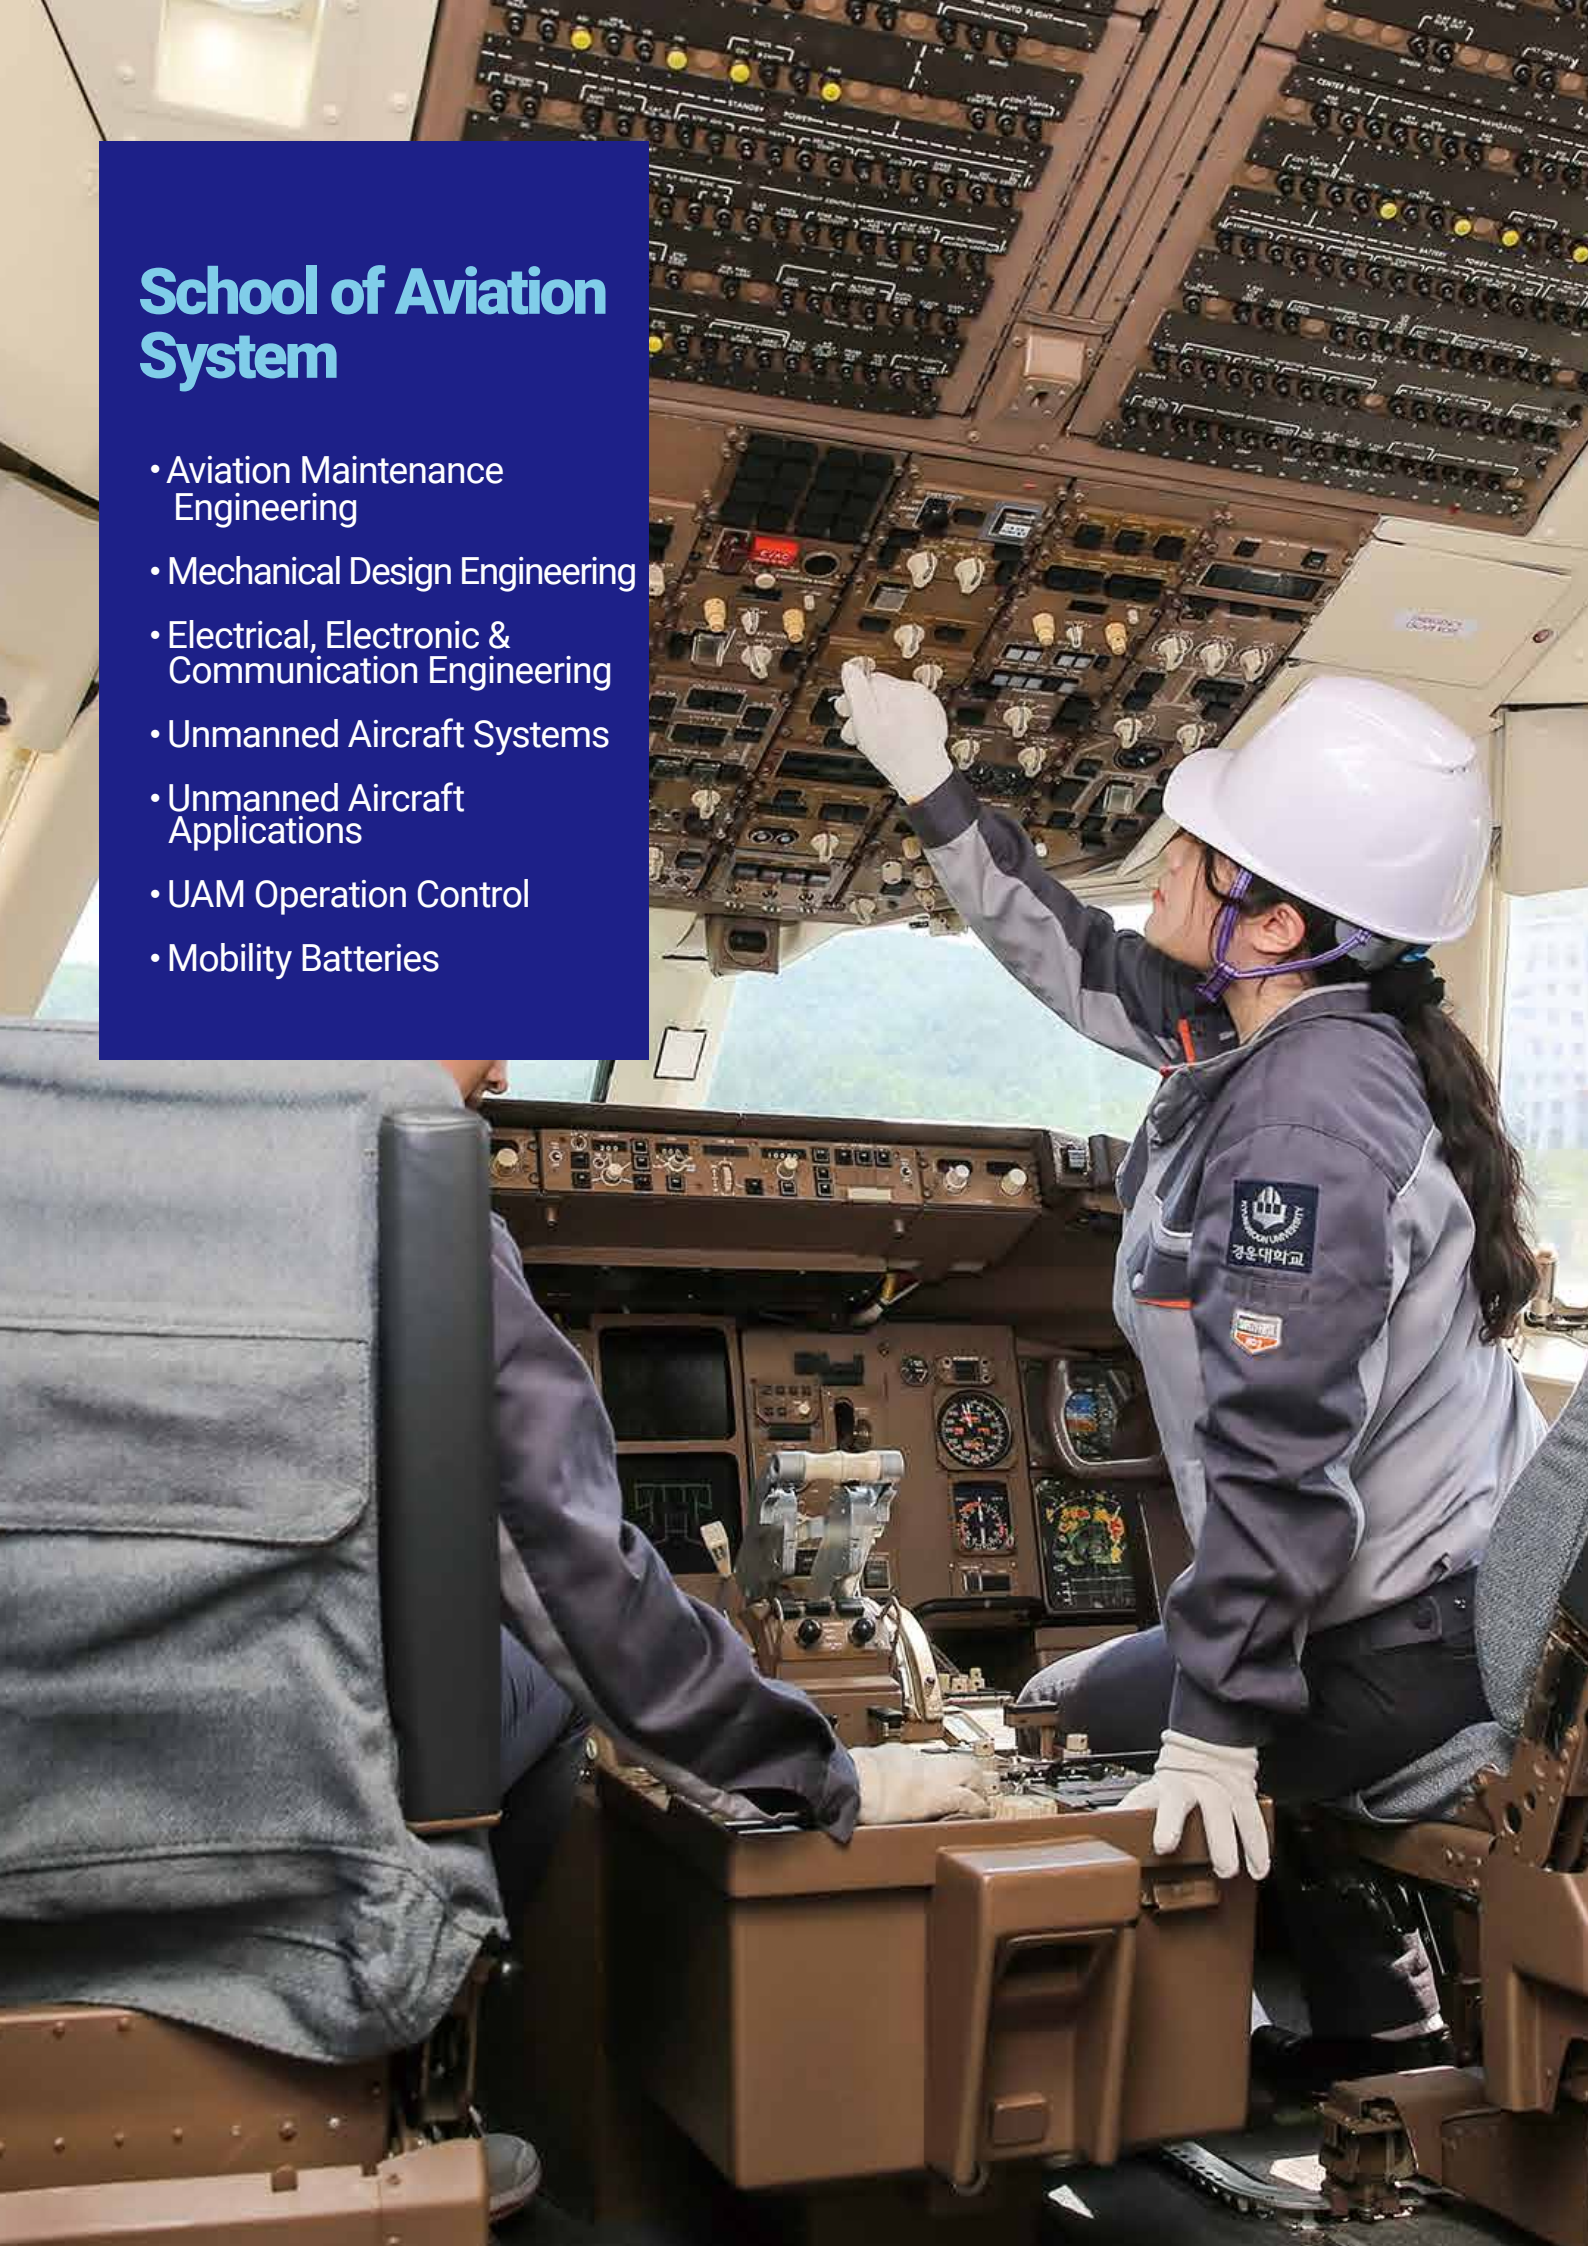

Kyungwoon University Campus

School of Aviation System

- Aviation Maintenance Engineering
- Mechanical Design Engineering
- Electrical, Electronic & Communication Engineering
- Unmanned Aircraft Systems
- Unmanned Aircraft Applications
- UAM Operation Control
- Mobility Batteries

School of Aviation System

Aviation Maintenance Engineering

- Training global aviation maintenance experts to lead the future aviation maintenance industry worldwide
- Providing education in knowledge and skills related to aviation maintenance, including airframe, engine, electrical, digital electronics, and control systems
- In the 21st century, aviation technology is a highly in-demand profession compared to its supply in the era of specialized technical skills

School of Aviation System

Mechanical Design Engineering

- Convergent education in design, analysis, and manufacturing based on the principles of mechanics theory, CAD, and advanced structural analysis
- Employment growth in advanced science and technology-related professions such as aerospace engineers and 3D printing modelers due to digital transformation

School of Aviation System

Electrical, Electronic & Communication Engineering

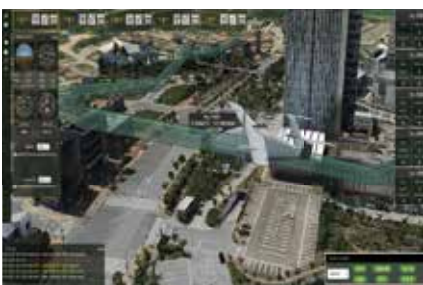

- Producing hardware designers, firmware designers, and software specialists in the fields of electrical, electronics, communications, information, and software
- Educating engineers with the capability to plan, design, and develop intelligent electrical and electronic systems and advanced communication technologies

School of Aviation System

Unmanned Aircraft Systems

- Establishing top-tier domestic education facilities and securing a specialized faculty in the field of design, production, control, and management of unmanned aerial systems (UAS)
- Operating a fusion education program centered around unmanned aerial systems, incorporating various academic fields such as mechanical engineering, electronic engineering, aerospace engineering, control engineering, and software engineering

School of Aviation System

Unmanned Aircraft Applications

- Training creative and interdisciplinary talents for unmanned aerial system (UAS) operations through learning the technology and knowledge required for a wide range of industries using UAS
- The drone industry is experiencing rapid annual growth rates of 13.8% to 35.4%, resulting in more employment opportunities than ever before

School of Aviation System

UAM Operation Control

- Training managerial and multidisciplinary professionals for the establishment of Urban Air Mobility (UAM), a new transportation service system, including UAM operators, operational support providers, vertiport operators, and traffic management service providers
- Becoming a UAM operations specialist with unique international competitiveness in the country offers significant career opportunities. Moreover, the government-led UAM TEAM KOREA initiative involves collaboration with government agencies, local authorities, research institutions, and consortia (such as Hyundai Motor and Korean Air), which strengthens employment prospects

School of Aviation System

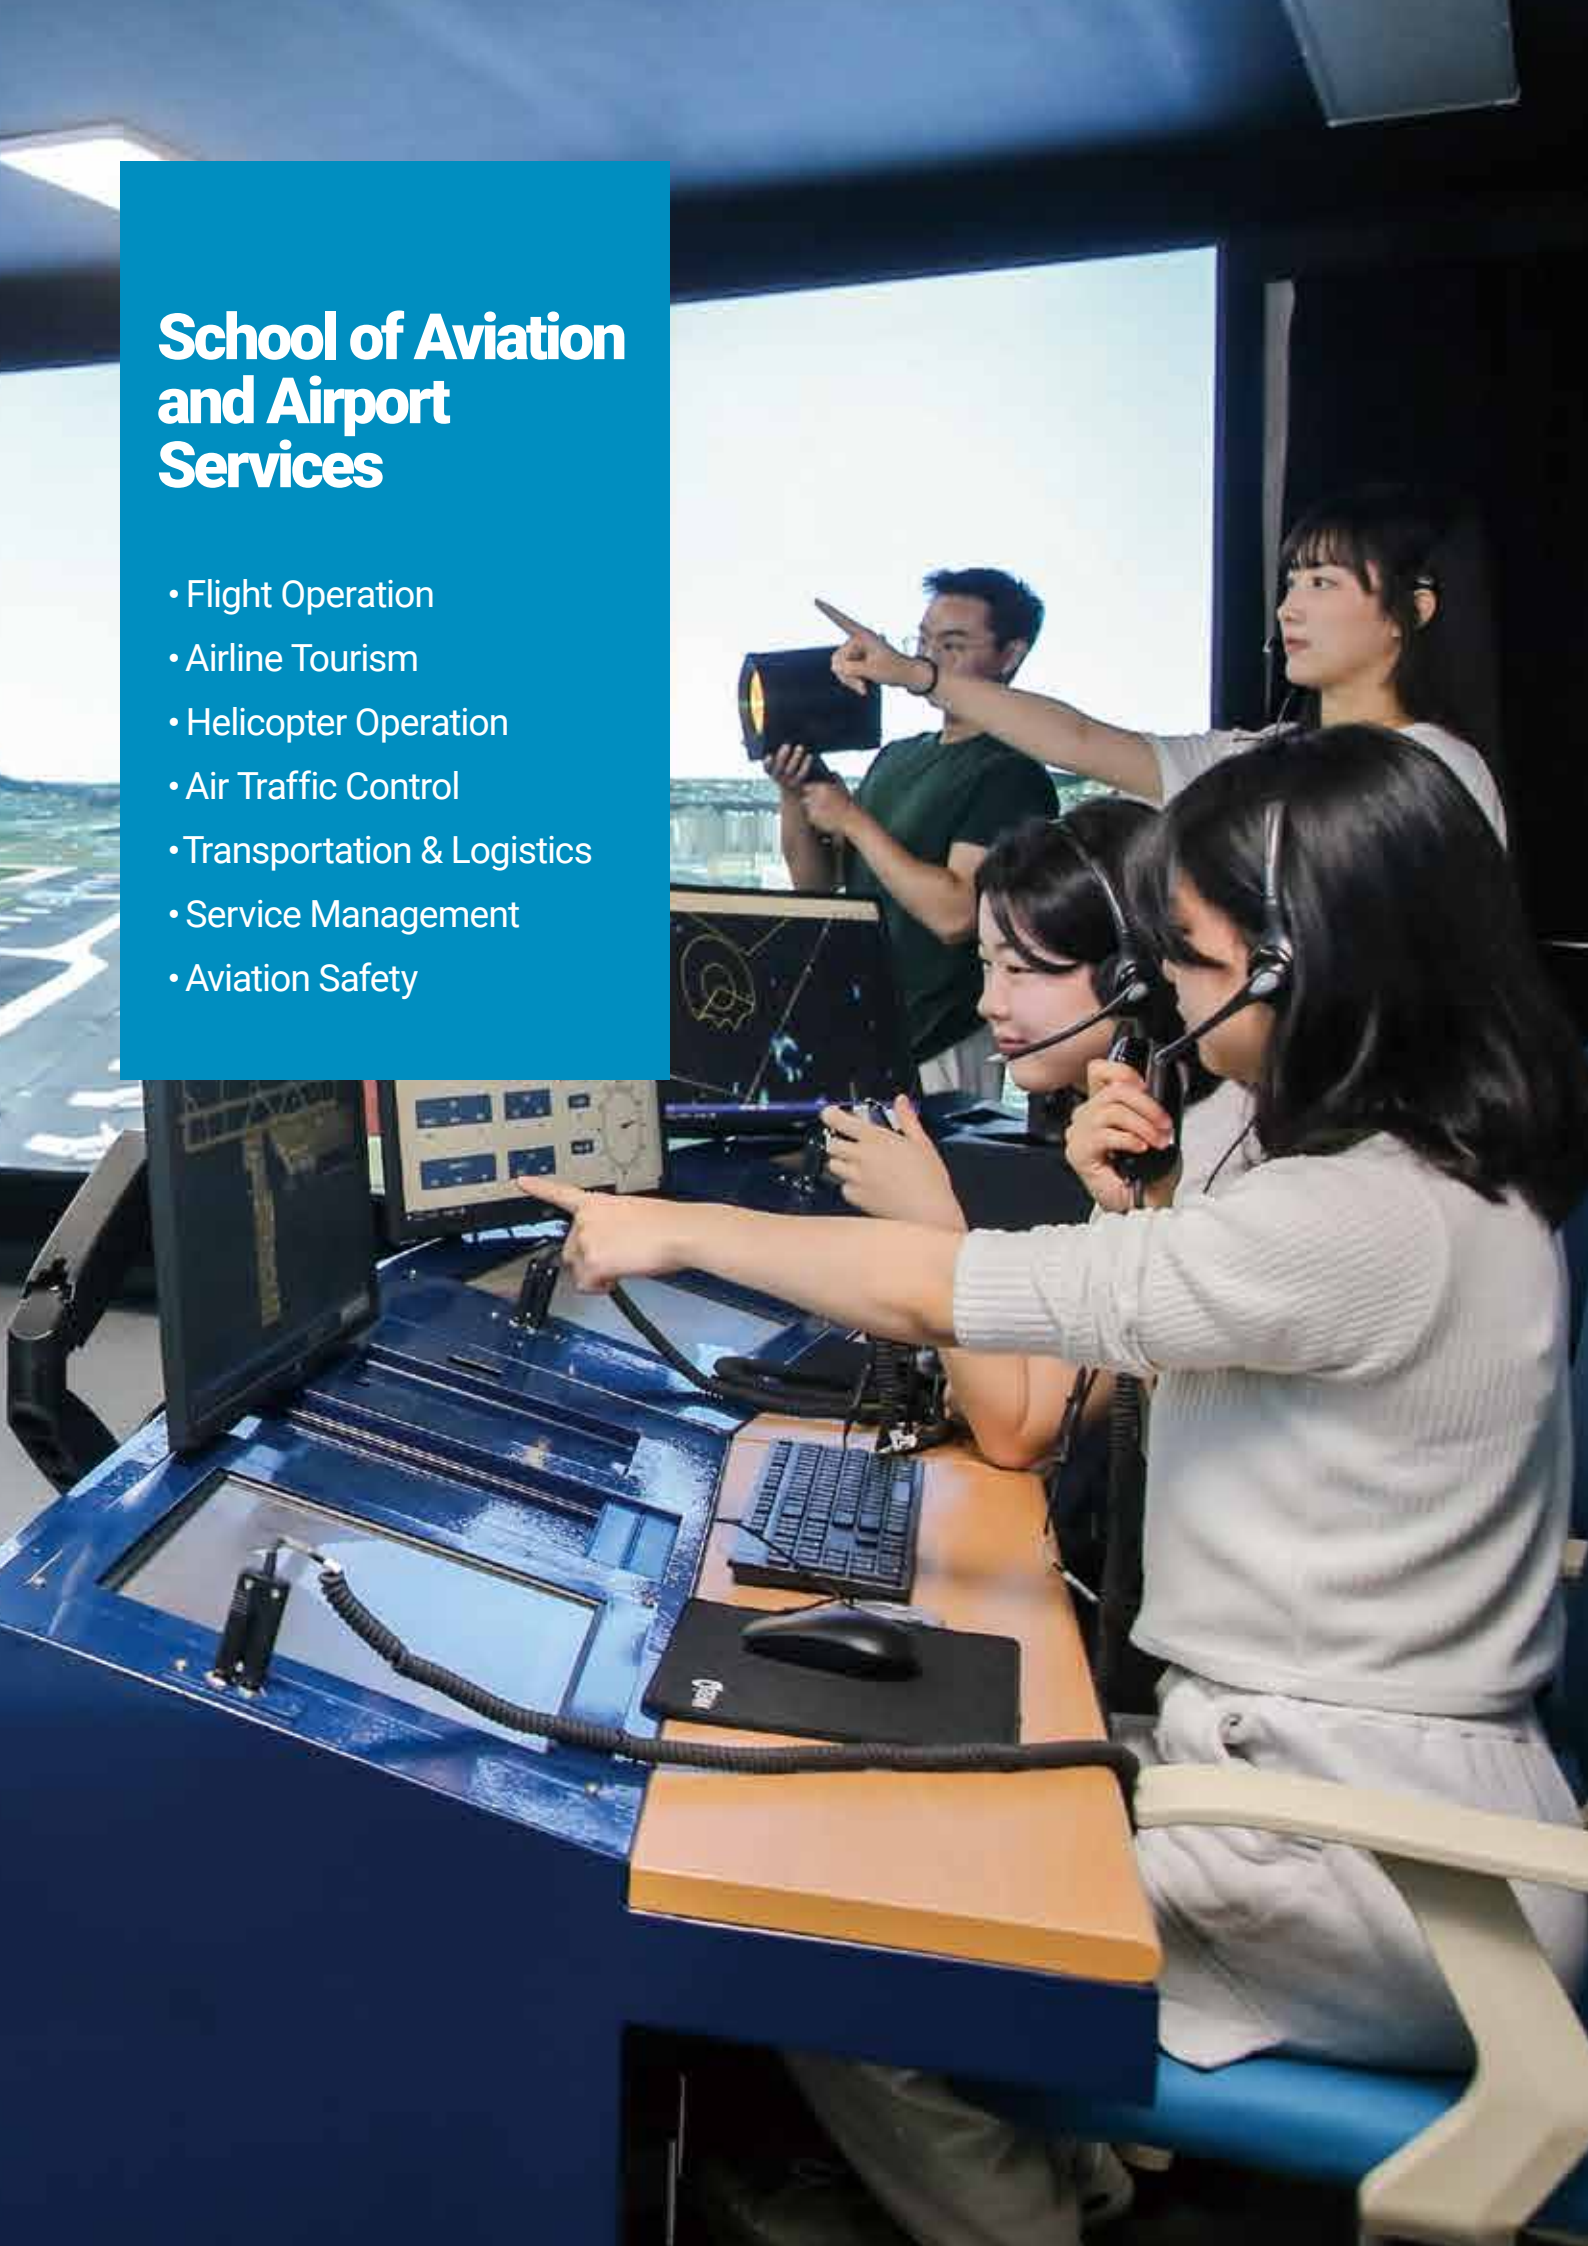

Mobility Batteries

- A major based on the K-Battery industry, which forms the basic of the future mobility industry
- The employment of young people in the battery field increased from 2,550 in 2017 to 8,845 in 2021, a 3.5 fold increase in just four years. It is expected that the battery field will grow to a market size that surpasses the semiconductor industry

School of Aviation and Airport Services

- Flight Operation
- Airline Tourism
- Helicopter Operation
- Air Traffic Control
- Transportation & Logistics
- Service Management
- Aviation Safety

School of Aviation and Airport Services

Flight Operation

- Providing education and conducting research on the fundamental theories related to aviation operations, as well as advanced pilot practical and operational training
- The increase in air cargo volume and the expansion of routes by low-cost airlines contribute to the expansion of job opportunities for pilots

School of Aviation and Airport Services

Helicopter Operation

- Training top-tier talents equipped with the knowledge and excellent piloting skills required by the nation, various military branches, and industries in the field of helicopter operations
- Practical training and hands-on education coordinated with aviation-related industries

School of Aviation and Airport Services

Air Traffic Control

- Conducting hands-on, practical education programs focused on real-world experience and training to prepare for the commercialization of next-generation aviation mobility means such as UAM and unmanned aerial vehicles
- Emphasizing the development of key personnel for the growth of local emerging industries due to the construction of the integrated new airport in Daegu and Gyeongsangbuk-do, through specialized education programs

School of Aviation and Airport Services

Transportation & Logistics

- Fostering experts in smart transportation logistics in line with the innovation in the future transportation logistics field driven by advancements in new technologies
- Graduates enter various industries and organizations, including manufacturing and service-related companies, airlines, logistics companies, transportation-related public agencies, and national research institutes

School of Aviation and Airport Services

Airline Tourism

- Fostering global talents with specialized knowledge in all fields of the domestic and global aviation industry, equipped with an international perspective
- Various programs are available to enhance students' skills, including language training, internships, and certification acquisition
- Courses in aircraft structure and safety, as well as in-flight services, are conducted on actual aircraft (B767-200)

School of Aviation and Airport Services

Service Management

- Providing systematic programs, including professional education, practical field training, language learning, and on-site internships, to nurture talents with global competitiveness
- Many graduates work in the hospitality industry and thrive as global tourism experts

School of Aviation and Airport Services

Aviation Safety

Nurturing the best aviation security experts in the country

- Increased demand for customs inspection and airport security jobs due to the expansion of Incheon International Airport and the construction of new airports in Daegu-Gyeongbuk, Busan-Gyeongnam, and Jeju
- Providing the highest level of security education in the country at the Ministry of Land, Infrastructure and Transport-approved (scheduled) Aviation Security Training Institute

School of Software Convergence

- Intelligent Software
- Smart Mobility
- Visual Illustration
- Video & Animation
- 3D Interior Design & Architecture

School of Software Convergence

Intelligent Software

- Software based on an understanding of AI, big data technology, and software design and development, which can be applied to various industries, including the mobility industry
- Specialization in the mobility industry, nurturing talents in the design and development of software services for unmanned vehicles, and defense and security applications

School of Software Convergence

Smart Mobility

- Nurturing experts in high-reliability software through the operation of interdisciplinary majors in UAM operations and mobility safety
- Leading departments in cutting-edge fields such as AI under the Innovation Leading University of the 4th Industrial Revolution (Ministry of Education, specializing in AI and aviation mobility)

School of Software Convergence

Visual Illustration

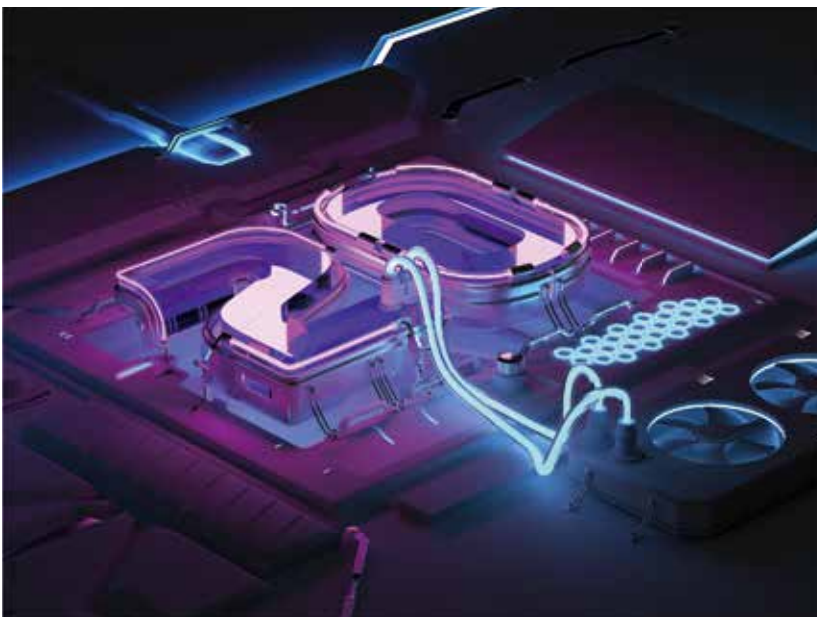

- Nurturing visual designers and illustrators with creative problem-solving abilities in fields such as graphic design, digital design, character design, editing design, interior design, typography, advertising design, and illustration
- Providing a state-of-the-art education and comfortable, convenient learning spaces
- Hosting art exhibitions 1-2 times a year

School of Software Convergence

Video & Animation

- Nurturing content design experts demanded by society through practical-focused educational programs on the planning and production of integrated media content
- Operating major-related clubs or associations

School of Software Convergence

3D Interior Design & Architecture

- Emphasizing the functionality and artistic aspects of living spaces and learning various IT design techniques related to spaces integrated with IT technologies including smart spaces and metaverse
- With government and local initiatives such as the renovation of aging homes, urban regeneration projects, and reconstruction projects, the demand for interior design is expected to continue steadily

School of Social Safety

- Military Science
- Police Administration
- Disaster Management
- Social Welfare
- Counseling Psychology
- Safety Engineering
- Martial Arts Studies
- Sports Health and Rehabilitation

School of Social Safety

Military Science

- Aiming to produce top-notch professional military officers equipped with both knowledge and martial skills, while nurturing physical and mental resilience through combat readiness training and military experience, in addition to fostering specialized knowledge in military affairs

School of Social Safety

Police Administration

- Nurturing police leaders who possess creativity and expertise to safeguard the lives and property of citizens and maintain social order
- Providing practical training in physical fitness improvement and apprehending criminals

School of Social Safety

Disaster Management

- Studying industrial safety and disaster management to cultivate the ability to analyze various natural disasters, industrial accidents, and safety incidents and develop responses and management capabilities for disasters and safety incidents
- Learning various fields including fire science, architecture, fire-related laws, and fire simulation to protect human lives and property from accidents and fires, prevent incidents and accidents, and ensure efficient fire suppression

School of Social Safety

Social Welfare

- Cultivating social workers and youth counselors who can contribute to the realization of a welfare society by nurturing practical skills in the field
- Addressing the ongoing increase in public demand for and interest in welfare
- Expanding job-focused education with the goal of achieving a 100% employment rate

School of Social Safety

Counseling Psychology

- Cultivating talents who can contribute to the realization of a mentally healthy society by leveraging practical skills and hands-on experience
- Expanding job-focused education with the goal of achieving a 100% employment rate

School of Social Safety

Safety Engineering

- Producing security, guarding, and protection professionals responsible for the safety of our country through specialized practical skills, professional ethics, and sound character, utilizing the largest training facilities in the country
- Operating training facilities for martial arts (Judo, Taekwondo, Kemdo, Hapkido)

School of Social Safety

Martial Arts Studies

- Establishing the scientific principles and academic theories of martial sports coaching, solidifying the identity of martial sports, and nurturing experts through a scientific approach to coaching methods
- Providing employment opportunities in various fields outside martial sports, such as security personnel, industrial security officers, aviation security officers, and trainers

School of Social Safety

Sports Health and Rehabilitation

- Education with a strong focus on practical experience in exercise prescription and rehabilitation, recreational sports, and sports administration and education
- As demand gradually increases due to the growing desire for rehabilitation and returning to daily life and exercise after injury, preventive measures through professional management become crucial

School of Nursing and Health

- Nursing
- Physical Therapy
- Occupational Therapy
- Dental Hygiene
- Biomedical Laboratory Science

School of Nursing and Health

Nursing

- Fostering emergency and disaster-specialized medical personnel
- Fully accredited by the Korean Accreditation Board of Nursing (KABON)
- Officially recognized by the Korean Ministry of Health and Welfare contributing to the improvement of the public's health

School of Nursing and Health

Physical Therapy

- Authorized by Korea Physical and Medical Evaluation Institute and Korea Physical Therapists Association
- 100% pass on the 2022 National Physical Therapy Exam
- Operation of a three-certification-per-person system

School of Nursing and Health

Dental Hygiene

- Nurturing dental hygienists who contribute to public health by preventing dental and oral diseases and promoting oral hygiene
- 100% pass on the 2022 National Dental Hygienist Exam

School of Nursing and Health

Biomedical Laboratory Science

- Nurturing creative and proactive healthcare professionals who take a leading role in the health and medical field through practical training in life sciences and medical science
- Operating a Clinical Physiology Simulation Center (KAPS Center) and specialized educational programs in clinical physiology

School of Nursing and Health

Occupational Therapy

- Training healthcare professionals to provide rehabilitation therapy to individuals with physical and mental disabilities
- Occupational therapists are currently short-staffed, with around 20,000 professionals, and are recognized as essential healthcare workers in an aging society. It is expected that there will be an increased demand for occupational therapy professionals in the next 10 years

- 
- Online-centered classes
 - Differentiated learning support
 - Customized academic system
 - Abundant scholarship benefits!

School of Future Industry
Convergence that leads the
career of adult learners

**Aviation Maintenance
Convergence**

**Electrical and
Electronics Convergence
Engineering**

**Multi-drone
Management**

**Battery Convergence
Engineering**

**Investment
Management**

**Carbon Neutrality and
Ecology**

**Investment
Management**

- Anyone who is over 25 years old and has a high school diploma, specialized high school diploma, Meister diploma, or at least 1 year of work experience (including military experience) in the industry can apply

School of Global Education

■ Korean Language & Studies

Students will gain knowledge of Korean language and literature through reading and analysis of literary works. After graduation, students will have a chance to enter the education field or work in media including the press, magazine, newspaper and broadcasting.

■ Business Administration

Aiming to foster scientific and rational-minded entrepreneurs focusing on concrete, practical, and sophisticated education, based on case-studies and discussion based lectures

■ Safety & Disaster Prevention

Providing wide-ranging interdisciplinary education through examining case studies, for students who want to be engaged in or seek professional careers in crisis, disaster and risk management

■ IT-based Business

Providing education on how to make business more digitised and automated by integrating information technology with our everyday life, which lead to making our life much 'smarter' and more connected

■ Health & Biotechnology

Educating principles of biological sciences and the advanced biotechnology covering the research area of plant, animal, and human sciences, which encourages students to develop their own careers in the bio-industries

Tuition

1. Undergraduate

College	Department	Tuition
School of Aviation System	Aviation Maintenance Engineering	4,120,000 KRW
	Mechanical Design Engineering	4,120,000 KRW
	Electrical, Electronic & Communication Engineering	4,120,000 KRW
	Unmanned Aircraft Systems	4,120,000 KRW
	Unmanned Aircraft Applications	4,120,000 KRW
	Unmanned and Autonomous Vehicle engineering	4,120,000 KRW
	UAM Operation Control	4,120,000 KRW
	Mobility Batteries	4,120,000 KRW
School of Aviation and Airport Services	Flight Operation	5,005,000 KRW
	Helicopter Operation	5,005,000 KRW
	Air Traffic Control	4,045,000 KRW
	Transportation & Logistics	4,045,000 KRW
	Airline Tourism	3,170,000 KRW
	Service Management	3,170,000 KRW
	Aviation Safety	4,120,000 KRW
School of Software Convergence	Intelligent Software	4,120,000 KRW
	Smart Mobility	4,120,000 KRW
	Visual Illustration	4,320,000 KRW
	Video & Animation	4,320,000 KRW
	3D Interior design & Architecture	4,320,000 KRW

*Tuition fee can be changed due to the year change and rate change.

Accommodations (Daegu)

- The Student Residence provides high quality student accommodations for the exclusive use of students.
- Each unit of this apartment-styled residence is equipped with two rooms with the dining area, kitchen facilities, and shared bathrooms.
- The area surrounding the Student Residence has a variety of choices of cafes, bars and restaurants for students to select from.
- **Fees**

Each Semester 1,109,500 KRW

*The amount is subject to change.

Accommodations (Gumi)

- The Student Residence provides high quality student accommodations for the exclusive use of students.
- Every dormitory building is equipped with WIFI connections, shared bathrooms, common rooms, a fitness center and a laundry room.
- The Dormitory is located on Gumi campus, with a ten minute walk to main university buildings.
- **Fees**

Each Semester 862,500~1,109,500 KRW

*The amount is subject to change.

REGULAR KOREAN COURSE

COURSE SUMMARY

- Course length : 10 weeks
- Class size : 12-15 people (max 20)
- Textbook : Coursebook
- Total hours : 20 Hours per week
- Level : Beginner to Advanced
- Starting date : Every Monday
- Certificate : Provided
- Course Fee: 1,200,000 KRW

SCHEDULE IN 2023

- SPRING : MAR 02-MAY 11
- SUMMER : MAY 22-JULY 31
- FALL : SEP 18-NOV 30
- WINTER : DEC 11- FEB 22

2024 Spring Semester Admission Timeline

Procedure	Admission Schedule
	2024 Spring Semester (*1st application)
Application	September 11 (Mon) ~ September 15 (Fri), 2023
Submission of Documents	September 11 (Mon) ~ September 22 (Fri), 2023
Result Announcement	November 3 (Fri), 2023
Registration	December 18 (Mon) ~ December 21 (Thu), 2023
Notes	▶ Send your application and required documents to the following address: KW Institute of International Affairs and Education (39160) Office 211, Building No. 2, Kyungwoon University , 730 , Gangdong-ro , Sandong-eup , Gumi-si , Gyeongsangbuk -do, Republic of Korea

※ The schedule is subject to change.

Undergraduate

Admission Scholarship (First Semester Only)

Scholarships	Required Qualifications
100% Tuition Waiver	TOPIK level 5 or successful candidate of the Kyungwoon Korean Language Proficiency Test (Level 4)
70% Tuition Waiver	TOPIK Level 4
50% Tuition Waiver	TOPIK level 3, IELTS 6.5 or Kyungwoon TOPIK Certificate (Level 4)
20% Tuition Waiver	IELTS 5.5 or equivalents

Undergraduate

Scholarship for Academic Excellence (From Second Semester)

Scholarships	Required Qualifications
100% Tuition Waiver	TOPIK level 5 and Minimum GPA of 3.5 from the previous semester
70% Tuition Waiver	TOPIK level 4 and Minimum GPA of 3.5 from the previous semester
50% Tuition Waiver	TOPIK level 3 and Minimum GPA of 3.5 from the previous semester
30% Tuition Waiver	Minimum GPA of 3.0 from the previous semester

Undergraduate

International Student Scholarship

Scholarships	Required Qualifications
100% Tuition Waiver	Recommendation by the Korean Ambassador to the relevant nations or equivalents Minimum GPA of 3.0 from the previous semester
50% Tuition Waiver	TOPIK Level 3 or higher Minimum GPA of 3.0 from the previous semester * From the 3rd semester, TOPIK Level 4 or higher is required
30% Tuition Waiver	Minimum GPA of 3.0 from the previous semester * From the 3rd semester, TOPIK Level 4 or higher is required

Undergraduate

Special Admission Scholarship (First Semester Only)

Scholarships	Required Qualifications
100% Tuition, Admission Waiver	
50% Tuition, Admission Waiver	A person with excellent grades who has received a recommendation from Chief Director of KW Institute of International Affairs and Education
100% Tuition Waiver	
50% Tuition Waiver
